## Professional Summary

Frontend Developer skilled in React.js, Next.js, Redux Toolkit, JavaScript (ES6+), and Tailwind CSS, with hands-on experience building fast, responsive, and scalable web applications. Built real-world projects like a Flipkart E-commerce Clone, Full Stack Blog App, Weather App, and Task Manager — demonstrating strong API integration, state management, and UI/UX design. Familiar with TypeScript and currently integrating it into new projects to enhance code safety and maintainability. Proficient in version control (Git), deployment (Vercel, Netlify), and collaborative workflows. Experienced with AI tools like GitHub Copilot, ChatGPT, and Claude for development, debugging, and code optimization.

## Core Skills

Frontend:	React.js, Next.js, Redux Toolkit,TypeScript (Learning), JavaScript (ES6+), HTML5, CSS3
UI & Styling:	Tailwind CSS, Bootstrap 5, Responsive Design, Figma
Backend:	Node.js, Express.js, MongoDB, JWT,Firestore
Tools & Deployment:	REST APIs, Postman, Git, GitHub, Vercel, Netlify,Render

## Industry Assignment Experience

### Hands-on Project Experience from Company Rounds

- Completed real-world challenges using React.js and Next.js for various company selection tasks
- Built responsive UIs, managed global state with Redux/Context API, and integrated REST APIs.
- Applied JWT-based authentication and JSON data structures for secure data exchange and API communication
- Utilized AI tools like (Copilot, ChatGPT, Claude Ai) to speed up development and improve code quality.
- Conducted functional testing & debugging, delivering error-free solutions within deadlines.
- Deployed live demos on Vercel, Netlify, and Render, ensuring fast and reliable hosting.
- Used Git and GitHub for version control and collaboration.

## Projects

### Flipkart Clone – E-commerce Web App | <https://flipkart-clone.vercel.app>

- Built a responsive UI with Next.js App Router and Tailwind CSS.
- Implemented Redux state management for cart, categories, and authentication.
- Developed core features: product listing, search, navigation, and cart management.

### Vichaar Blog – Full Stack Blogging Platform | <https://vichar-blog.vercel.app>

- Built a blogging platform using Next.js (frontend) and Express.js + Node.js (backend) with MongoDB database.
- Implemented JWT-based authentication, secure login/signup routes, token verification, and protected API endpoints.
- Enabled CRUD operations for posts including rich text and image uploads using Multer.
- Managed private/public post visibility, public feed, and personal dashboard for users.

### Task Manager – React CRUD Productivity App | <https://task-manager.vercel.app>

- Implemented CRUD operations (add, update, complete, delete) with localStorage persistence.
- Added filter & search functionality for enhanced task management.
- Delivered a user-friendly dashboard using React.js and Bootstrap 5.

## Education

- M.Sc. Computer Science, Chaudhary Charan Singh University, Meerut — Aug 2023 – Jul 2025
- B.Sc. Computer Science, Chaudhary Charan Singh University, Meerut — Aug 2019 – Aug 2022
